

What's Your Backup Plan?

AltuGuard™ online backup services can save you time and money while you sleep more soundly.

Digital data is an integral part of daily business operations and at the core of every growth strategy -- *backing up your data is a critical task.*

Traditional backup solutions often rely on human resources, which are error prone and can be fairly costly, leaving your business vulnerable to revenue and productivity loss.

Our solutions are simple, secure, and affordable, so you can focus on running your business, not your IT department. With AltuGuard™ there is often no hardware to buy, no setup fees, and with our automatic services, no additional management required to oversee it all.

Reduce the hassle and cost of protecting your valuable IT network with AltuGuard™ pay-as-you-go online services.

Pricing for AltuGuard™ Online Backup

Storage Space	Monthly Rate
10 GB	USD \$20.00
